Company Profile

Zuari Bath Appliances established as professional faucet manufacturer.

Evolving with changing lifestyle of people and understanding their needs for unique structural design and decor, Zuari envisioned a whole market of modern bathroom fitting. **Eye Catching Element Collection** in both economical and premium categories are being produced at best price with a commitment to provide faster after sale service.

Zuari's dedication to make perfect balance of **Quality, Technology and Design** which ensure your years of reliable performance. For make it possible, our company has equipped with excellent technological equipment, advanced management techniques and rigorous detection method.

We have tied up with various manufacturer who will manufacture the products part as per our design and superior quality.

We are handing toward developing the **"ZUARI" a Seal Of Trust** for each and every person across India.

Our Mission

To design and deliver the most luxurious and unique range of bath products with the most up-to-date technology by providing the 100% accurate quality with best service to our customer everyday.

Our Vision

Our vision guides every aspect of our business by describing what we need to accomplish in order to continue achieving sustainable quality growth.

Our Core Value

Our core values are the single greatest component to our company culture and success. They promote a productive atmosphere, while encouraging mutual respect and engagement.

WHY ZUARI ?

Faucet Technology

100% MADE IN INDIA

High quality construction of material to ensure a product made of the best design and 100 % made in India.

DOUBLE PLATING

All faucets are double plate, which are characterized by a double chrome plating an double nickle plating to grant the product a long life.

EASY TO ASSEMBLE

Single hole installation and standard plumbing connection

EASY TO CLEAN

Nozzle resists mineral buildup and is easy to clean.

SOFT MOVE & LONG LIFE

To ensure smooth movement of spindles and cartridges tested for over 5 lakh cycles, assuring long life of faucets.

LIMITED 7 YEARS WARRANTY

ZUARI Limited warranty covers customers for the life of their products based on manufactures defect in spindle only*.

FULL IN-HOUSE PRODUCTION

SOURCING

Brass is sourced from the most reputed vendors and is inspected by QC staff before it is sending for casting.

CASTING

Virgin brass and scrap is casted in various molds as per the pattern using the Die Casting Process.

MACHINING

Casted products are machined as per the design requirements to create threads.

GRINDING

The machined product is thus grinded using belt grinders to achieve smooth finishes without sharp edges.

POLISHING

The grinded pieces are polished on high speed polishing machines by experienced workers to achieve perfect surface with high glass & shine.

TESTING

Having undergone the above process, the pieces are then checked for surface defects. The water carrying components are pressure tested using new matic water testing machine to detect any leakage in the casting.

PLATING

The tested and okayed pieces then undergo the process of plating finishing.

ASSEMBLY

The coated pieces are assembled and once again checked and tested with new matic pressure testing machine. The tested pieces are then packed in corrugated boxes and ready for dispatch.

Consumer Guideline

Zuari provides most excellent with the use of contemporary technology. Zuari always believes in customer satisfaction. Company's skilled executive are constant interface with customers. Zuari also believes that consumers must get the best out of its product. Followings are the general instructions carefully followed by their consumers to get optimum results of the products.

- ☞ Use 25mm pipes rather than 20mm to entire better water flow and to overcome reduction in dia of pipeline due to scaling inside the pipeline. Keep the minimum number of bends in the pipelines and make it travel straight and vertical as far as possible.
- ☞ All the supply must have vent pipes. These vent pipes help in removing air-locking in the water supply to give a flow of water from the fittings. Test the working of all the concealed fittings installed on a high pressure for leakage before plastering or fixing the line.
- ☞ Clean the aerators provided in the items at regular intervals for a perfect foam flow of water from the fittings.
- ☞ Place the outlet point in the overhead tank at least 25cm above the ground level of the tank. This prevents the flow of foreign particles, sand etc.. along with water supply into the fitting and thereby preventing the possible damage to the working parts. Clean the tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular interval to avoid deposition of foreign particles.

Warranty & Care Instructions

- ✓ The Product is warranted by Zuari to be free of defects in material and workmanship for a period of 7 years from the date of purchase.
- ✓ During this period and under normal use, if the product is found to be of faulty manufacture, the same will be repaired or replaced upon proof of purchase, at our option, without charge either for part.
- ✓ Zuari does not provide plumbing service to end-users.
- ✓ Clean the fittings regularly with normal soap or chalk powder to remove scaling/stains. Do not use strong detergents as this may cause damage to the chromium finish provided in all Zuari products.
- ✓ Do not use harsh cleaning agents containing abrasive and acids, instead use a soft sponge of wet cloth with soapy water/diluted vinegar to protect the color coated finish. To protect the fine finish of fittings from dirt stains and other damages, cover them with cloth/polypack after their installation till they come into actual use.
- ✓ If these care instructions are not followed, warranty claims may be denied.
- ✓ Any Warranty claim should accompany a proper invoice, clearly indicating the source and date purchase.

Caution

- ✓ The Warranty will be void and not valid, and Zuari will have no liability if
- ✓ Breaking of product during on after the installation and defect caused by improper handling, application of cleaning process.
- ✓ Modifications, repairs or service are made to the product, nature of the product/logo has been altered, defaced or removed.
- ✓ Pictures shown are for illustration purpose only actual product may vary due to product enhancement.

Terms & Conditions

- ✓ All prices are in Indian Rupees.
- ✓ All Government Tax are included in MRP.
- ✓ Goods are dispatched by us on buyer's risk.
- ✓ Prices are subject to change without prior notice.
